

1

Go to www.1100.com.au, enter your user name and password directly from our home page and begin submitting your Dial Before You Dig enquiry. New to the service? Then register by clicking on the 'New Registration' button.

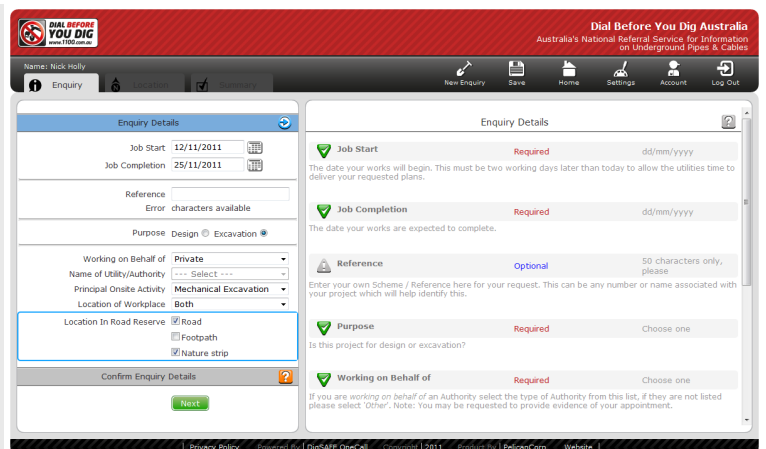

2

Once you have successfully logged in or have gone through our registration process you will arrive at the Start Console. From here you will be able to commence a new enquiry, view past enquiries and change your registration information.

3

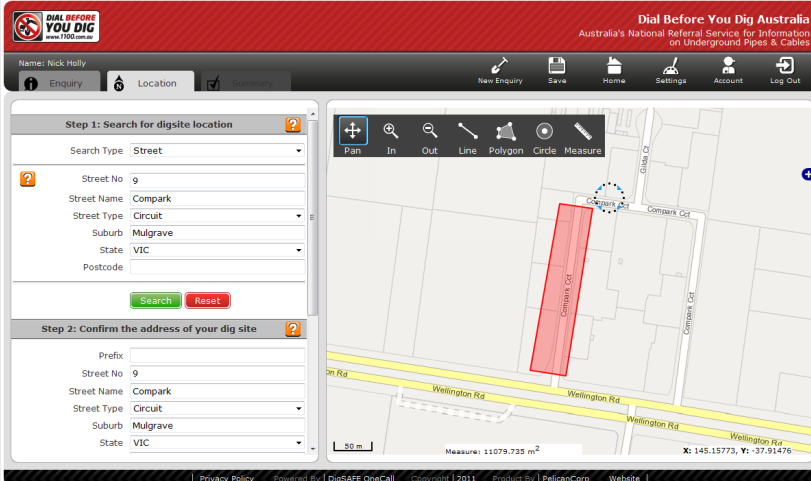

Provide us with the details of your job, including start date and expected completion date of work, type of work, and your location. We are also interested if you are working on behalf of a Utility or a council, this information will help our members provide the correct information to suit your needs.

Please turn the page to complete the full enquiry process...

4

Use the search tools to find your starting location and then draw your work place on the map using the mapping tools provided. Scroll down to describe the job so that Utilities can provide an accurate set of plans. At the bottom of the panel on the left is the SUBMIT button.

Utility List

Your request has been successfully submitted, you will receive an email shortly confirming your enquiry and listing the asset owners who will contact you regarding the location of their assets.
** - These asset owners DO NOT supply plans and/or information regarding the existence of underground assets on private properties.
It is your sole responsibility to identify the presence of any underground assets in and around the proposed dig site on any private property. Authorities with the status 'Not Notified' have not registered their assets with our service and therefore it is your responsibility to contact them directly.
